About Data Capturing System (DCS)

Knowledge Consortium of Gujarat

Department of Education, Government of Gujarat

No. KCG/2021-22/ 62-?

Date: 12/07/2021

To,
Registrar
GSIRF Participating Universities.

Sub: GSIRF 2021 - Certificate & Analytical Report.

As you may recall, prior to the onset of the pandemic and the lockdown, KCG had released the results of the 'Gujarat State Institutional Rating Framework' (GSIRF) 2021 on 22nd June, 2021. The third edition of GSIRF has noticed a positive development with many participating institutions climbing up the ratings as well as showcasing progress in the recently released 'National Institutional Ranking Framework' (NIRF) 2021.

From the first edition, we also see a marked improvement in the participation and feedback from institutions. 35 Universities. and 189 Colleges. / Institutions participated in different categories in GSIRF 2021. 06 universities have excelled with a 5 Star in the Category of University:

Akin to NIRF, the parameters of GSIRF are similar, except for the differentiation between Rankings & Ratings. The exercise is independently conducted by an established third party agency, the Indian Centre for Academic Rankings & Excellence (ICARE) and a detailed data collation exercise is undertaken by them whilst ensuring a comprehensive, an objective and a transparent evaluation exercise.

Please find the attached¹ Official: Certificate and Detailed Performance Report for GSIRF 2021. For further queries or support required mail us on rankini@kcg@gujgov.edu.in or contact Anita Vakhariya on 8306764026.

FOREWORD

The Gujarat State Institutional Rating Framework (GSIRF) is India's first, third-party validated, fully objective and comprehensive Audit, Assessment & Ratings of institutions on the lines of Government of India's National Institutional Ranking Framework (NIRF) with a view to improve the quality and standing of Gujarat based institutions in National and International Audit, Assessments and Accreditation.

The Department of Education, Government of Gujarat is pleased to present the inaugural edition of the Gujarat State Institutional Rating Framework (GSIRF), a comprehensive assessment of over 75 institutions covering both Public and Private Universities and Colleges. The report was released at the hands of Shri Bhupendrasinh Chudasama, Hon'ble Minister for Education in the presence of academicians at a glittering ceremony organized at New Sachivalay on 27th February 2019. The report has been compiled by 'ICARE Ratings', the research and analysis division of the Indian Centre for Academic Rankings & Excellence, a prestigious third-party rankings & ratings agency on behalf of the Knowledge Consortium of Gujarat (KCG).

Gujarat is the first amongst all the States to undertake a detailed audit & evaluation of all its universities on NIRF Parameters. In line with MHRD's vision of creating world-class universities in India, Government of Gujarat, through GSIRF, aims to assess and identify the strengths and weaknesses of the institutions in the State, and help them improve on their deficiencies. An annual exercise, the Knowledge Consortium of Gujarat (KCG) will rate institutions under regionally-relevant yet globally-flavored parameters such as Research Excellence, Innovation, Teaching Excellence, Employability, Infrastructure and Inclusiveness & Social Impact. The framework consists of 4 broad parameters, 16 indicators and 24 sub indicators. For an unbiased and accurate assessment, institutions are divided into separate categories based on their origin and type: University, College, Engineering Institution, Pharmacy, Law etc.

At the end of the audit process, universities are awarded Stars for their overall performance and within 5 different parameters, where 5 Star stands for Excellent & Top-Rated Institution, 4 Stars for Very Good Institution with Potential to Grow Higher, 3 Star for Good Quality Institution; 2 Stars for Average Quality and 1 Star for institutions that needs improvement and immediate intervention by the Government.

Unlike several indigenous and global rankings that usually provide universities with a single number or score with very little data on performance, GSIRF, for the first time, is providing each University a detailed & exhaustive analytical report that senior leaders can use to draw up strategic plans to build on areas of strength and improve weak areas with an aim to achieve excellence regionally, nationally & globally.

There is an ongoing debate in the country that often, the ranking parameters adopted by the global agencies do not suit the Indian context. GSIRF is an attempt by the Government to design a framework that has considered parameters that are more relevant to the State & Country. For instance, 'Perception' is a debated aspect in all global as well as national rankings. For the first time, GSIRF has created a fully outcome oriented and a data-based approach as many institutes in smaller towns suffer bias as the surveys do not constitute participants who may have first-hand understanding of the institutions as they are either too small or tucked away in regions far away from capital cities.

Another aspect that differentiates GSIRF from other existing metrics is that it employs a 'rating mechanism' instead of ranking, as rankings are often subject to debate due to the unfair comparison between different types of Universities. Marginal differences by a few decimals causes substantial differences in ranking of institutions. Rating will ensure that institutes are not compared against one another but compared against a pre-set threshold that is reasonable, yet inspirational.

The larger Intention of the ratings is to serve as a tool that empowers students to make more informed choices about the study options available to them. Besides, it will provide the State Government a valuable tool to promote higher standards and encourage long-term strategies for social and economic development in the Indian higher education sector.
